Live demo: How to use the ILNAS lecture station

21 October 2019

Jérôme Hoerold
Head of the National Standards Body

Standardization catalogue

- 64 national standards

ILNAS

Institut luxembourgeois de la normalisation,
de l'accréditation, de la sécurité et qualité
des produits et services

- 70.071 European Standards from
CEN, CENELEC and ETSI

- 65.726 International Standards from ISO and IEC

- 47.321 DIN standards

→ More than 180.000 normative documents at your disposal

- Format: electronic
- Language: French, German and English
- Competitive prices
- Free access to documents in public enquiry

WELCOME TO THE ILNAS E-SHOP!

National (ILNAS, DIN), European (EN) and International (ISO, IEC) standards are available here!

ILNAS offers you the possibility to search and purchase National, European and International Standards, prepared and adopted by the Standardization Organizations such as ILNAS, DIN, CEN, CENELEC, ETSI, ISO and IEC. This online catalogue includes draft standards, adopted and published ones as well as historical deliverables.

A read-only access to standards is offered for free at several locations in Luxembourg.

Advanced search

How to search standards? | How to purchase standards? | How to get your standards?

Two ways are provided to you:

- A quick Search box allowing you to search by standard code (number) or keywords and phrases
- An Advanced Search which allows you to combine further search criteria such as:
 - Standard reference / wording
 - Standardization Body
 - Technical Committee
 - Domain (ICS Field: International Classification for Standards)
 - Directive
 - Edition date

News

Cloud Computing : renforcer la confiance grâce aux normes

En 2016, 19 % des entreprises luxembourgeoises utilisaient des services de Cloud Computing(1), soit une progression de 6 % depuis 2014. Cette technologie offre de nombreux avantages aux organisations qui l'adoptent (ex. : accessibilité, optimisation des coûts) cependant plusieurs facteurs, tels que les potentiels problèmes de sécurité ou de portabilité, limitent encore son usage. Dans ce cadre, les organisations internationales de normalisation travaillent activement à développer des normes répondant à ces problématiques afin de favoriser l'adoption du Cloud Computing par les organisations.

Availability of all EN (CEN,CENELEC et ETSI), ISO, IEC and ILNAS standards (despite DIN*)

Location of the lecture stations:

City of Esch-sur-Alzette & Municipality of Sanem

- ILNAS premises at Esch-Belval (access upon request)
- Luxembourg Learning Centre at Esch-Belval
- Luxembourg Institute of Science and Technology (LIST) at Belvaux

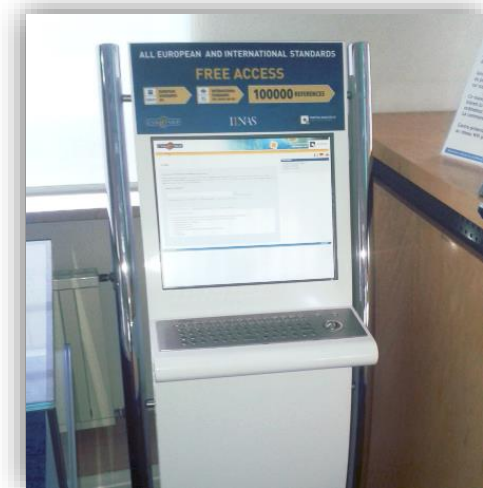

City of Luxembourg

- Library of the University of Luxembourg (Campus Kirchberg)
- SECURITYMADEIN.LU

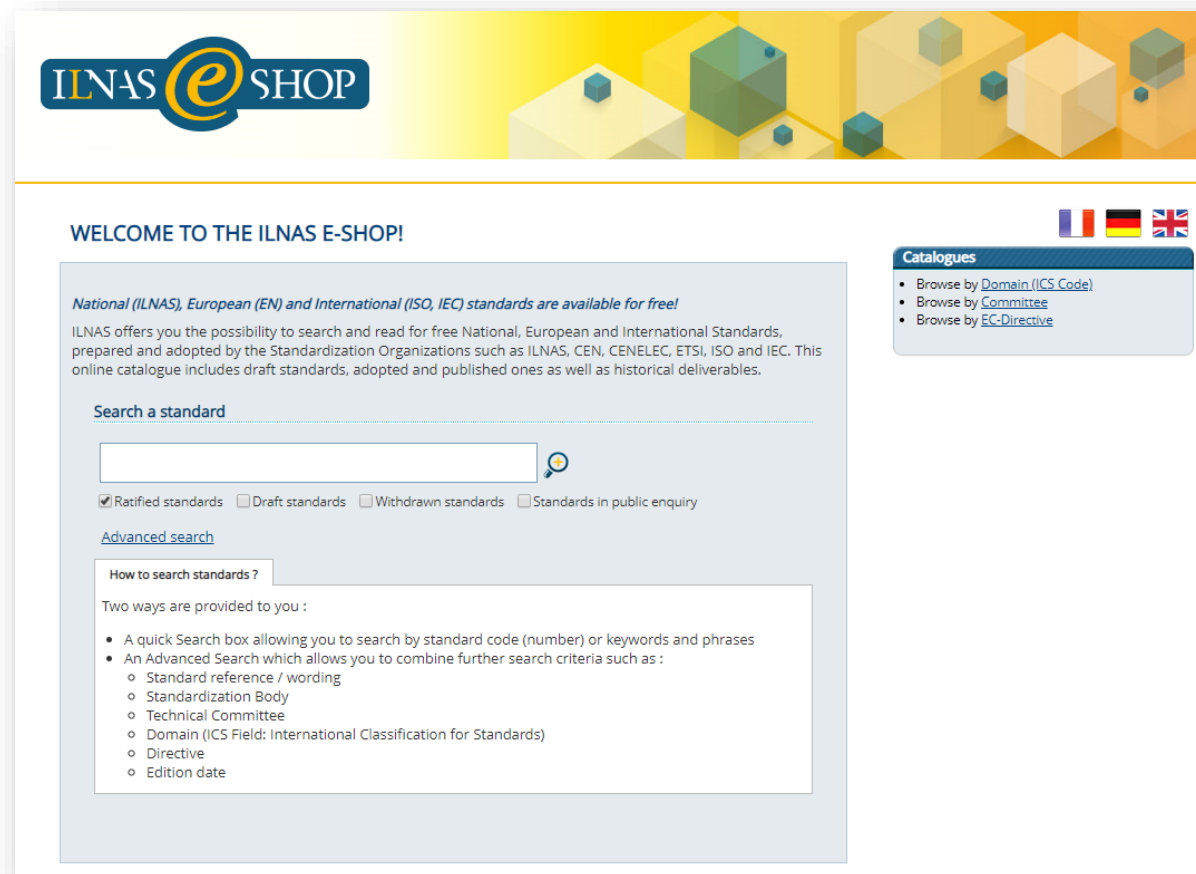

City of Echternach

- Municipal Administration of the City of Echternach

* DIN standards are only available on the ILNAS lecture station

Live demo: How to use the ILNAS lecture station

The screenshot shows the ILNAS eSHOP website. At the top left is the ILNAS eSHOP logo. The main heading reads "WELCOME TO THE ILNAS E-SHOP!". Below this, a text block states: "National (ILNAS), European (EN) and International (ISO, IEC) standards are available for free!" and "ILNAS offers you the possibility to search and read for free National, European and International Standards, prepared and adopted by the Standardization Organizations such as ILNAS, CEN, CENELEC, ETSI, ISO and IEC. This online catalogue includes draft standards, adopted and published ones as well as historical deliverables." A search bar is provided with the label "Search a standard" and a magnifying glass icon. Below the search bar are four checkboxes: "Ratified standards" (checked), "Draft standards", "Withdrawn standards", and "Standards in public enquiry". A link for "Advanced search" is also present. A section titled "How to search standards?" lists two ways: a quick search box and an advanced search. The advanced search criteria include: Standard reference / wording, Standardization Body, Technical Committee, Domain (ICS Field: International Classification for Standards), Directive, and Edition date. On the right side, there are flags for France, Germany, and the UK, and a "Catalogues" section with three links: "Browse by Domain (ICS Code)", "Browse by Committee", and "Browse by EC-Directive".

ICS = International Classification for Standards

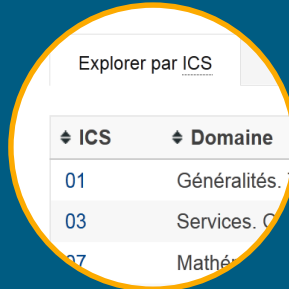

– Classification consists of 3 levels

- **Level 1:** 40 areas of standardization (two digits)
Example: 11 (Health technologies)
- **Level 2:** 392 groups for the 40 areas of standardization (three digits)
Example: 11.040 (Medical equipment)
- **Level 3:** > 1.000 subgroups for the 392 previous groups (two digits)
Example: 11.040.50 (X-ray devices)

Search by ICS Classification

35 INFORMATION TECHNOLOGY

- 35.020 Information technology (IT) in general
- 35.040 Character sets and information coding
- 35.060 Languages used in information technology
- 35.080 Software
- 35.100 Open systems interconnection (OSI)
- 35.110 Networking
- 35.140 Computer graphics
- 35.160 Microprocessor systems
- 35.180 IT terminal and other peripheral equipment
- 35.200 Interface and interconnection equipment
- 35.220 Data storage devices
- 35.240 Applications of information technology
- 35.260 Office machines

Search by technical committee

The standard watch can also be made by **targeting existing technical standardization committees (TC)**.

TC are present either at national, European (CEN/TC) or international (ISO/TC) level.

Several technical committees of several standardization bodies may interest you.

i.e.: A TC number is unique; when the TC "completed" its standardization work, it is dissolved. However, the TC is not dissolved if it keeps reviewing standards.

Also check that the TCs that you identified are active! This requires you to consult the draft standards of the TC. If no project is visible, you can contact the secretariat of the TC, or ILNAS, to verify its activity.

http://www.iso.org/iso/fr/home/store/catalogue_tc.htm

<http://standards.cen.eu/dyn/www/f?p=CENWEB:6:::NO>

Consult the list of the technical committees on the websites of the standardization organizations
